Discussion Questions

1. What is a *for* AGI deduction? Give three examples.

Learning Objective: 02-01

Topic: Form 1040 and 1040A

Difficulty: 1 Easy

Feedback: A deduction for AGI is a deduction permitted under the IRC that is used to calculate AGI. It can also be thought of as a deduction from gross income to arrive at AGI. Examples include deductions for IRAs, Keoghs, or other self-employed qualified pension plans; student loan interest; moving expenses; one-half the self-employment tax; self-employed health insurance deduction; penalty on early withdrawal of savings; and alimony paid.

EA: Yes

2. What are the five types of filing status?

Learning Objective: 02-02

Topic: Filing Status

Difficulty: 1 Easy

Feedback: The five types of filing status are:

Single

Married filing a joint return

Married filing separate returns

Head of household

Qualifying widow(er) with dependent child

EA: Yes

3. What qualifications are necessary to file as head of household?

Learning Objective: 02-02

Topic: Filing Status

Difficulty: 1 Easy

Feedback: To qualify as head of household, the taxpayer must be unmarried at the end of the tax year, be a U.S. citizen or resident throughout the year, not be a qualifying widow(er), and maintain a household that is the principal place of abode of a *qualifying person* for more than half the year or pay more than half the costs of maintaining a separate household for the taxpayer's mother or father if the mother or father qualifies as a dependent of the taxpayer. Temporary absences, such as attending school do not disqualify the person under this section.

EA: Yes

4. George and Debbie were legally married on December 31, 2016. Can they file their 2016 income tax return using the status of married filing jointly? Why or why not? What other filing status choices do they have, if any?

Learning Objective: 02-02

Topic: Filing Status

Difficulty: 1 Easy

Feedback: Yes, George and Debbie can file using the filing status of married filing jointly. The requirement for this status is that the couple be legally married on the last day of the tax year. Alternatively, the couple could choose to use the married filing separate status.

EA: Yes

5. What is the amount of the personal and dependency exemptions for 2016?

Learning Objective: 02-03

Learning Objective: 02-04

Topic: Personal and Dependency Exemptions

Difficulty: 1 Easy

Feedback: The amount is \$4,050 for personal and dependency exemptions.

EA: Yes

6. What are the three general tests that a qualifying person must meet to be a dependent of the taxpayer?

Learning Objective: 02-04

Topic: Dependency Exemptions

Difficulty: 1 Easy

Feedback: To be a dependent of the taxpayer, a qualifying child and a qualifying relative must meet the three general tests: dependent taxpayer test, joint return test and citizen or resident test.

EA: Yes

7. What are the five specific tests necessary to be a qualifying child of the taxpayer?

Learning Objective: 02-04

Topic: Dependency Exemptions

Difficulty: 1 Easy

Feedback: A person is a qualifying child if he or she meets all five of the following tests: relationship test, age test, residency test, support test, and special test - for qualifying child of more than one taxpayer.

EA: Yes

8. What age must a child be at the end of the year to meet the age test under the qualifying child rules?

Learning Objective: 02-04

Topic: Dependency Exemptions

Difficulty: 1 Easy

Feedback: At the end of the year, the child must be: under the age of 19; under the age of 24 and a full-time student; or totally and permanently disabled regardless of age. In addition, after 2008, the child must be younger than the person claiming the dependency.

EA: Yes

9. What are the four specific tests necessary to be a qualifying relative of the taxpayer?

Learning Objective: 02-04

Topic: Dependency Exemptions

Difficulty: 1 Easy

Feedback: A person qualifies as a qualifying relative if he or she meets all four of the following tests: not a qualifying child test, relationship or member of household test, gross income test, and support test.

EA: Yes

10. What is a multiple support agreement, and what is its purpose?

Learning Objective: 02-04

Topic: Dependency Exemptions

Difficulty: 2 Medium

Feedback: Normally, in order to claim someone as a dependent a taxpayer must provide more than half the support of the person. At times, an individual may receive support from multiple persons, but no one person has provided more than 50% of the support. In such a case, a multiple support agreement can be signed. If every one of the persons providing support could claim the individual as a dependent (absent the support test) then one person who provided more than 10% of the support can receive the dependency exemption if all persons sign a written multiple support agreement.

The purpose of the agreement is so someone can obtain the dependency exemption rather than no one. Further, the agreement provides a mechanism such that all parties can agree on who that person should be.

EA: Yes

11. Mimi is 22 years old and is a full-time student at Ocean County Community College. She lives with her parents, who provide all of her support. During the summer, she put her Web design skills to work and earned \$4,150. Can Mimi's parents claim her as a dependent on their joint tax return? Why or why not? Assume that all five tests under qualifying child are met.

Topic: Dependency Exemptions**Difficulty: 2 Medium**

Feedback: All of the dependency tests are met by Mimi's parents, so they can claim her as a dependent. The fact that Mimi earned \$4,150 does not matter since Mimi is under age 24 and she is a full-time student at a qualifying educational institution. Thus, the gross income test is not necessary for a qualifying child as long as Mimi does not provide more than half of her own support.

EA: Yes

12. What is the standard deduction for each filing status?

Learning Objective: 02-05**Topic: Standard Deduction****Difficulty: 1 Easy**

Feedback: The standard deduction for each filing status for 2016 is:

EA: Yes

13. Under what circumstances must a taxpayer use a tax rate schedule rather than using a tax table?

Learning Objective: 02-06**Topic: Tax Computation****Difficulty: 1 Easy**

Feedback: If the taxable income of a taxpayer is \$100,000 or more, a tax rate schedule must be used. Taxable income of less than \$100,000 requires the use of a tax table.

EA: Yes

14. When and at what rate is interest calculated on amounts owed to the IRS?

Learning Objective: 02-07**Topic: Interest and Penalties****Difficulty: 2 Medium**

Feedback: If the taxpayer still owes tax after April 15th. The rate charged is the federal short-term rate plus 3 percentage points.

EA: Yes

15. Prepare a table of the possible IRS penalties listed in the text and give a brief summary of the purpose of each penalty.

Learning Objective: 02-07

Topic: Interest and Penalties

Difficulty: 2 Medium

Penalty	Reason for Penalty
Interest charged on assessments	To encourage taxpayers to pay assessments in a timely manner and to compensate the government for the time-value of late payments
Failure to file a tax return	To reprimand taxpayers for failing to file a tax return
Failure to pay tax	To seek retribution from taxpayers who fail to pay tax
Failure to pay estimated taxes	To penalize taxpayers for failing to pay estimated taxes throughout the year
Accuracy-related penalties	To seek retribution from taxpayers for underpayments or submitting tax returns with errors
Fraud penalties	To penalize taxpayers for providing fraudulent information

- a. Explain how the limitation (phaseout) process works.
 - b. Give two examples of deductions, credits, or other benefits that are limited.

Learning Objective: 02-01

Topic: Form 1040 and 1040A

Difficulty: 2 Medium

Feedback:

- a. **Taxpayers with AGI in excess of certain specified amounts are prohibited from utilizing the full amount of many deductions, credits, or other tax benefits. - the middle receive a reduced benefit as AGI increases. Sometimes a specified AGI amount represents the dividing line between receiving the full amount of a benefit or not receiving any benefit.
- b. Examples of benefits which are subject to limitation include: earned income tax credit, child care credit, child tax credit, and deductibility of IRA contributions.
 - c. There may be a number of reasons why Congress might restrict benefits. First, reducing benefits results in higher taxable income and tax liability, thus increasing tax revenues. Second, taxpayers with higher AGI are often deemed to be able to financially afford fewer benefits and higher taxes since they have more money to start with. Third, and somewhat ironically, there are fewer high income voters compared to low and moderate income voters.

EA: Yes

32. List the five types of filing status and briefly explain the requirements for the use of each one.

Learning Objective: 02-02

Topic: Filing Status

Difficulty: 1 Easy

Feedback: The five types of filing status and requirements are:

Single. Taxpayer must be unmarried on the last day of the tax year and must not qualify as either head of household or qualifying widow(er).

Married filing a joint return. Taxpayers must be legally married on the last day of the tax year. Taxpayers in the process of getting a divorce can file with this classification as long as the divorce is not final. Generally, neither taxpayer can be a nonresident alien at any time during the tax year.

Married filing separate returns. Taxpayers must meet the requirements for married filing jointly and can then choose to file married filing separately.

Head of household. In order to qualify as head of household, the taxpayer must be unmarried at the end of the tax year, be a U.S. citizen or resident throughout the year, not be a qualifying widow(er), and maintain a household that is the principal place of abode of a *qualifying person* for more than half the year. If the mother or father of the taxpayer qualifies as a dependent of the taxpayer, the taxpayer can be eligible for head of household status by paying more than half the costs of maintaining a separate household that is the principal place of abode for the mother or father.

Qualifying widow(er) with dependent child. During the two years following the year of death of a spouse, a taxpayer can file as a qualifying widow(er) if the taxpayer did not remarry and if the taxpayer maintained a household which was the principal place of abode for the entire year of the taxpayer

and a dependent child, stepchild, or adopted child. In addition, the taxpayer must have been eligible to file a joint return in the year the spouse died.

EA: Yes

33. In which of the following cases may the taxpayer claim head of household filing status?

- a. The taxpayer is single and maintains a household that is the principal place of abode of her infant son.
- b. The taxpayer is single, maintains a household for herself, and maintains a separate household that is the principal place of abode of her dependent widowed mother.
- c. The taxpayer was married from January to October and lived with his spouse from January to May. From June 1 to December 31, the taxpayer maintained a household that was the principal place of abode of his married son and daughter-in-law, whom the taxpayer can claim as dependents.
- d. Same as (c) except the taxpayer lived with his ex-spouse until August and maintained the household from September 1 to the end of the year.

Learning Objective: 02-02

Topic: Filing Status

Difficulty: 2 Medium

Feedback:

- a. The taxpayer can claim head of household status.
- b. The taxpayer can claim head of household status. It is not necessary that her mother live in the same household as the taxpayer.
- c. The taxpayer can claim head of household status.
- d. The taxpayer cannot claim head of household status. The son and daughter-in-law must live with the taxpayer for more than half the tax year. And the taxpayer cannot live with his or her spouse during the last 6 months of the year.

EA: Yes

34. How many personal exemptions can a taxpayer claim on his or her tax return? Explain your answer.

Learning Objective: 02-03

Topic: Personal Exemption

Difficulty: 1 Easy

Feedback: The taxpayer is only entitled to one personal exemption (\$4,050 for 2016) for himself or herself. However, if he or she is married, then another personal exemption can be claimed for the spouse.

EA: Yes

35. Roberta is widowed and lives in an apartment complex. She receives \$8,000 of social security income that she uses to pay for rent and other household expenses. The remainder of her living expenses is paid by relatives and neighbors. The total amount of

support paid by Roberta and the others totals \$22,000. Amounts paid for support during the year are as follows:

Roberta	\$8,000
Ed (neighbor)	4,000
Bill (son)	5,000
Jose (neighbor)	2,000
Alicia (niece)	3,000

- Which of these persons is entitled to claim Roberta as a dependent absent a multiple support agreement?
- Under a multiple support agreement, which of these persons is entitled to claim Roberta as a dependent? Explain your answer.
- If Roberta saved all of her social security income and the other persons paid for the shortfall in the same proportions as shown, which of these persons would be entitled to claim Roberta as a dependent under a multiple support agreement? Explain your answer.

Learning Objective: 02-04

Topic: Dependency Exemptions

Difficulty: 3 Hard

Feedback:

- Absent a multiple support agreement, no one is allowed to claim Roberta as a dependent.
- If a multiple support agreement were executed, no one would be able to claim Roberta as a dependent. A person is entitled to claim a dependent under a multiple support agreement if (1) over half the dependent's support was received from a group of people who would each have been entitled to claim the person as a dependent absent the support test, (2) no one person in the group provided over half the support, and (3) the person claiming the exemption paid over 10% of the support. In this instance, the only persons entitled to claim Roberta as a dependent absent the support test are Bill and Alicia since neither Ed and Jose meet the relationship test (this assumes that Roberta is Alicia's aunt by blood and not by marriage). Bill and Alicia contributed only 36% of Roberta's support ($[\$5,000 + \$3,000] / \$22,000$). Thus, criterion #1 above is not met and no one is entitled to the dependency exemption for Roberta.
- Here, the amount paid in support of Roberta is recalculated as follows (percentages are rounded to the nearest full percent):

	Original Amount Paid	Percentage of Original Total	Revised Amount Paid
Ed (neighbor)	\$4,000	29%	\$ 6,380
Bill (son)	5,000	36%	7,920
Jose (neighbor)	2,000	14%	3,080

Alicia (niece)	3,000	21 %	4,620
	-----		-----
	\$14,000		\$22,000

As in case (b), either Bill or Alicia is entitled to the dependency exemption absent the support test. Between them, they provided over 50% of the support of Roberta and each one of them provided over 10% of her support. Thus, either Bill or Alicia would be entitled to the dependency exemption if a multiple support agreement were executed.

EA: Yes

36. Shandra is a U.S. citizen and is the 68-year-old widowed mother of Janet. After retirement, Shandra decided to fulfill a lifelong dream and move to Paris. Shandra receives \$1,000 of interest income, but all of her other living expenses (including rent on her Paris apartment with spectacular views of the Eiffel Tower) are paid by Janet. Janet resides in Chicago. Is Janet entitled to a dependency exemption for Shandra? Explain your answer.

Learning Objective: 02-04

Topic: Dependency Exemptions

Difficulty: 2 Medium

Feedback: Yes, Janet is entitled to dependency exemption for Shandra.

The four specific criteria to be able to claim a qualifying relative as a dependent are:

Not a qualifying child test. Shandra is not the qualifying child of another taxpayer.

Relationship test. Shandra meets the relationship test since she is the mother of Janet.

Gross income test. Shandra does not earn equal to or more than the personal exemption amount.

Support test. Janet provides over 50% of Shandra's support.

In addition, the general tests are also met:

Joint return. Shandra is widowed and will not file a joint return.

Citizenship test. Shandra is a U.S. citizen.

Dependent taxpayer test. Janet cannot be claimed as a dependent by another person.

The fact that Shandra lives in Paris does not matter. It is not important that a dependent live in the U.S., only that he or she is a citizen of the U.S. (or be a certain resident or national).

EA: Yes

37. Donald is a 21-year-old full-time college student. During 2016, he earned \$2,500 from a part-time job and \$1,150 in interest income. If Donald is a dependent of his parents, what is his standard deduction amount? If Donald supports himself and is not a dependent of someone else, what is his standard deduction amount?

Learning Objective: 02-05**Topic: Standard Deduction****Difficulty: 2 Medium**

Feedback: Donald's standard deduction amount if he is a dependent of his parents is the greater of \$1,050 or his earned income plus \$350. Donald's earned income is \$2,500 so his standard deduction will be \$2,850.

If Donald is self-supporting, his standard deduction amount will be \$6,300.

EA: Yes

38. Julio and Martina are engaged and are planning to travel to Las Vegas during the 2016 Christmas season and get married around the end of the year. In 2016, Julio expects to earn \$45,000 and Martina expects to earn \$15,000. Their employers have deducted the appropriate amount of withholding from their paychecks throughout the year. Neither Julio nor Martina has any itemized deductions. They are trying to decide whether they should get married on December 31, 2016, or on January 1, 2017. What do you recommend? Explain your answer.

Learning Objective: 02-05**Topic: Standard Deduction****Difficulty: 3 Hard**

Feedback: From a tax perspective, it would be more advantageous for Julio and Martina to marry in 2016.

The tax liability of Julio and Martina under each scenario would approximate the following:

	---- Single Returns ----		
	Martina	Julio	Joint Return
Adjusted Gross Income.....	\$ 15,000	\$ 45,000	\$ 60,000
Standard deduction	(6,300)	(6,300)	(12,600)
Personal exemptions.....	(4,050)	(4,050)	(8,100)
	-----	-----	-----
Taxable Income.....	\$ <u>4,650</u>	\$ <u>34,650</u>	\$ <u>39,300</u>
Tax liability	\$ 468	\$ 4,738	\$ 4,971

If Julio and Martina get married in 2016 and file a joint return, they will pay \$4,971 in federal income tax. If they wait until January 1, 2017, their collective tax liability in 2016 would be \$5,206. Thus, for tax purposes, it makes more sense for Julio and Martina to get married in 2016.

EA: Yes

39. Determine the amount of the standard deduction for each of the following taxpayers for tax year 2016:

- Christina, who is single.
- Adrian and Carol, who are filing a joint return. Their son is blind.
- Peter and Elizabeth, who are married and file separate tax returns. Elizabeth will itemize her deductions.

- d. Patricia, who earned \$1,100 working a part-time job. She can be claimed as a dependent by her parents.
- e. Rodolfo, who is over 65 and is single.
- f. Bernard, who is a nonresident alien with U.S. income.
- g. Manuel, who is 70, and Esther, who is 63 and blind, will file a joint return.
- h. Herman, who is 75 and a qualifying widower with a dependent child.

Learning Objective: 02-05

Topic: Standard Deduction

Difficulty: 2 Medium

Feedback:

- a. **Christina, \$6,300.**
- b. **Adrian and Carol, \$12,600. They do not get an additional amount for their son.**
- c. **Peter and Elizabeth, \$0. Since Elizabeth itemizes, Peter must also itemize so both are entitled to no standard deduction, only an itemized deduction.**
- d. **Patricia, \$1,450 (her earned income plus \$350).**
- e. **Rodolfo, \$7,850 (\$6,300 + \$1,550).**
- f. **Bernard, \$0, since he is a nonresident alien.**
- g. **Manuel and Esther, \$15,100 (\$12,600 + \$1,250 + \$1,250). Each is entitled to an additional standard deduction; Manuel because he is over 65 and Esther because she is blind.**
- h. **Herman, \$13,850 (\$12,600 + \$1,250).**

EA: Yes

40. Using the appropriate tax tables or tax rate schedules, determine the amount of tax liability in each of the following instances.

- a. A married couple filing jointly with taxable income of \$32,991.
- b. A married couple filing jointly with taxable income of \$192,257.

- d. Average = 19.7% Marginal = 25%
- e. Average = 27.5% Marginal = 33%
- f. Average = 19.1% Marginal = 25%

Learning Objective: 02-06

Topic: Tax Computation

Feedback:

- a. Taxpayer is entitled to a standard deduction of \$6,300 and two exemptions of \$4,050 each. Taxable income is \$9,093 and tax liability is \$908 according to the tax tables.

43. Victoria's 2016 tax return was due on April 15, 2017, but she did not file it until June 12, 2017. Victoria did not file an extension. The tax due on the tax return when filed was \$8,500. In 2016, Victoria paid in \$12,000 through withholding. Her 2015 tax liability was \$11,500. Victoria's AGI for 2016 is less than \$150,000. How much penalty will Victoria have to pay (disregard interest)?

Learning Objective: 02-07

Topic: Interest and Penalties

Difficulty: 3 Hard

Feedback: Victoria must pay a failure to file penalty and failure to pay penalty calculated as follows:

	\$12,000	withholding paid
+	<u>\$ 8,500</u>	tax due
	\$20,500	total tax for 2016
	 \$ 8,500	 underpayment
	<u>x10%</u>	2 months late x 5% penalty per month (both penalties)

are combined)
\$ 850 Failure to file and pay penalties

In order to avoid the underpayment penalty, Victoria must have paid the lesser of 90% of the current year's tax (\$18,450) or 100% of the prior year's tax (\$11,500). Since she paid \$12,000 in withholding, she does not have to pay the underpayment penalty.

EA: Yes

44. Paul has the following information:

AGI for 2016 = \$155,000
 Withholding for 2016 = \$ 24,000
 Total tax for 2015 = \$ 29,000
 Total tax for 2016 = \$ 33,793

- a. How much must Paul pay in estimated taxes to avoid a penalty?
- b. If Paul paid \$1,000 per quarter, would he have avoided the estimated tax penalty?

Learning Objective: 02-07

Topic: Interest and Penalties

Difficulty: 3 Hard

Feedback:

- a. **In order to avoid the underpayment penalty, Paul must pay the lesser of 90% of the current year tax (\$30,414) or 100% of the prior year's tax (\$29,000). His withholding for 2016 will be \$24,000. Thus, Paul must pay at least \$5,000 in estimated payments in 2016.**
- b. **No. Assuming Paul's income was earned evenly throughout the year, he would need to pay at least \$1,250 ($5,000 / 4$) per quarter in estimated payments to avoid the estimated income tax penalty.**

EA: Yes

45. Charles and Joan Thompson file a joint return. In 2015, they had taxable income of \$92,370 and paid tax of \$14,806. Charles is an advertising executive and Joan is a college professor. During the fall 2016 semester, Joan is planning to take a leave of absence without pay. The Thompsons expect their taxable income to drop to \$70,000 in 2016. They expect their 2016 tax liability will be \$9,581, which will be the approximate amount of their withholding. Joan anticipates that she will work on academic research during the fall semester.

During September, Joan decides to perform consulting services for some local businesses. Charles and Joan had not anticipated this development. Joan is paid a total of \$35,000 during October, November, and December for her work.

What estimated tax payments are Charles and Joan required to make, if any, for tax year 2016? Do you anticipate that the Thompsons will be required to pay an underpayment penalty when they file their 2016 tax return? Explain your answer.

Learning Objective: 02-07

Topic: Interest and Penalties

Difficulty: 3 Hard

Feedback: Charles and Joan will be required to make estimated payments for tax year 2016. Estimated payments are required equal to the lesser of 90% of the tax shown on the current year return (which we will calculate below) or 100% of the prior year tax (which was \$14,806).

The amount of estimated payments required for tax year 2016 (using the tax rate schedules) is:

Estimated year 2016 taxable income is \$105,000 (\$70,000 + \$35,000)

Tax on \$75,300.....	\$10,367.50
Tax on \$29,700 (\$105,000 – \$75,300) x 25%	7,425.00

Estimated 2016 tax liability.....	\$17,792.50
	x 90%

90% of estimated year 2016 tax liability...	\$16,013.25
	=====

Thus, Charles and Joan will need to pay estimated taxes based on \$14,806 (which is the lesser of \$14,806 or \$16,013). Since they will have paid \$9,581 in withholding payments, they will have to pay the difference of \$5,225 in estimated payments. Because the tax liability shortfall was a result of income earned in the final quarter of the tax year, the estimated payment can be made in one payment on or before January 15, 2017.

If Charles and Joan make the estimated payment determined above, it is unlikely they will have an underpayment penalty on their year 2016 tax return.

CHAPTER 2

EXPANDED TAX FORMULA, FORMS 1040A AND 1040, AND BASIC CONCEPTS

Learning Objectives

- LO 1. Describe the expanded tax formula and the components of the major sections of Form 1040A and Form 1040.
- LO 2. Determine the proper filing status.
- LO 3. Calculate personal exemptions.
- LO 4. Calculate dependency exemptions.
- LO 5. Determine the standard deduction.
- LO 6. Compute the amount of tax due to the Internal Revenue Service (IRS).
- LO 7. Determine what interest and penalties the IRS can assess and in what instances certain penalties are applicable.

Topics of Primary Importance

- Understanding the significance of choosing the proper filing status;
- Understanding the computation of personal and dependency exemptions.
- Understanding the requirements for a qualifying child and a qualifying relative for purposes of the dependency exemption; and
- Understanding the computation of the tax liability, the tax or refund due, and the interest and penalties assessed by the IRS.

Student Confusion Areas

- Determining the qualifications to claim head of household status;
- Determining the requirements for a qualifying child and a qualifying relative; and
- Determining the failure to file and failure to pay penalties when both apply to the same tax return.

Note to Instructor

- When using software, certain tax credits, such as the Child Tax Credit, may appear on the tax return even though we have not yet discussed tax credits. This

occurs because the taxpayer may be entitled to the credits and the software will automatically include the credit on the final tax return.

Notes Outline

I. LO 1 –Major Sections of Forms 1040A and 1040

A. Form 1040A is more complex than Form 1040EZ and Form 1040 is more complex than Form 1040A.

B. A taxpayer must use the form that is right for his or her particular situation. Always keep in mind that the simplest return should be used if the taxpayer's situation can be accommodated to the tax form.

C. By analyzing the Form 1040, the expanded tax formula can better be seen:

$$\begin{aligned}
 &\text{Gross Income (GI)} \\
 &\quad - \text{Permitted deductions from gross income} \\
 &= \text{Adjusted Gross Income (AGI)} \\
 &\quad - \text{Standard deduction or itemized deductions} \\
 &\quad - \text{Personal and dependency exemptions} \\
 &= \text{Taxable income (TI)} \\
 &\quad \times \text{Appropriate tax rates} \\
 &= \text{Tax liability} \\
 &\quad - \text{Tax credits} \\
 &\quad + \text{Other taxes} \\
 &\quad - \text{Tax payments and refundable credits} \\
 &= \text{Tax refund or tax due with return}
 \end{aligned}$$

D. Adjusted gross income (AGI) is an extremely important concept because many deductions and credits are determined with reference to it.

II. LO 2 – Filing Status

A. There are five filing statuses:

1. Single

- a. Taxpayer is not married and does not qualify for head of household or qualifying widow(er) status.
- b. Divorce or separate maintenance decree must be legally executed on or before December 31st of the tax year.
- c. Marital status is determined on the last day of the tax year.

2. Married filing jointly

- a. Taxpayer must be legally married as of the last day of the tax year.
- b. Joint filing is permitted even though only one spouse earns all the income.
- c. A surviving spouse can file jointly if he or she has not remarried as of December 31st of the tax year when the spouse died.

- d. If one of the spouses is a nonresident alien, generally a joint return cannot be filed.
- 3. Married filing separately
 - a. Taxpayer must be legally married as of the last day of the tax year to select this filing status.
 - b. Name and social security number of the other spouse must be listed on the taxpayer's tax return.
 - c. Both spouses must take the standard deduction, or must itemize deductions when filing separately; they cannot choose independent from each other.
- 4. Head of household
 - a. Taxpayer must be unmarried as of the last day of the tax year (there are certain rules for an abandoned spouse), be a U.S. citizen or resident throughout the year, not be a qualifying widow(er), and maintain a household that is the principal place of abode of a qualifying person for more than half of the year.
 - b. A qualifying person can be a qualifying child or a qualifying relative.
 - c. For a qualifying child:
 - i. If the child is single, he or she does not have to be a dependent of the taxpayer.
 - ii. If the child is married, he or she must be a dependent of the taxpayer.
 - d. For a qualifying relative:
 - i. Mother or father must be a dependent of the taxpayer, but there is no requirement for them to live in the taxpayer's home.
 - ii. Other qualifying relatives must be dependents of the taxpayer and live in the taxpayer's home for more than half the year. It is important to understand that a person who is a qualifying relative only because he or she lived with the taxpayer all year as a member of his or her household is not a qualifying person for head of household status, as shown in Exhibit 2-3 of the text; also see IRS Pub 17 for more details.
- 5. Qualifying widow(er) with dependent child
 - a. Taxpayer was eligible to file a joint return in the tax year the spouse died.
 - b. Taxpayer must be unmarried as of the last day of the tax year.
 - c. Dependent child must live with the taxpayer for the entire year (except for temporary absences).
 - d. Taxpayer must pay more than half the cost of keeping up a household.

In-class Example – A surviving spouse who qualified as married filing jointly when the spouse died and has filed as a qualifying widow(er) for the next year can use the

qualifying widow(er) status for the third year even though the child does not live at home and is not a dependent anymore. Is this true?

For the third year, the surviving spouse cannot file as qualifying widow(er) because all the required conditions for this filing status are not met. The surviving spouse must file single.

III. LO 3 – Personal Exemptions

- A. Taxpayer can deduct an exemption for himself or herself and his or her spouse (if married).
- B. The amount of the exemption is \$4,050 in 2016.
- C. If the taxpayer is claimed as a dependent on someone else's return, the taxpayer cannot claim a personal exemption for himself or herself on his or her own return.

IV. LO 4 – Dependency Exemptions

- A. Taxpayer can claim a dependency exemption if the person is a qualifying child or a qualifying relative and meets the following tests:
 - 1. Dependent taxpayer test
 - a. The qualifying child or qualifying relative cannot be claimed as a dependent by someone else.
 - 2. Joint return test
 - a. The qualifying child or qualifying relative cannot file a joint tax return, unless this person files a joint tax return simply to claim a refund and there is no tax liability on the return.
 - 3. Citizen or resident test
 - a. The qualifying child or qualifying relative must be a U.S. citizen, resident, or national; a resident of Canada or Mexico; or an adopted child of the taxpayer if the child is a member of the taxpayer's household all year and the taxpayer is a U.S. citizen or national.
- B. Who is a qualifying child?

To be considered a qualifying child, the following tests must be met:

 - 1. Relationship test
 - a. Child or descendant of child (grandchild or great-grandchild), stepchild, eligible foster child, brother, sister, half-brother, half-sister, stepbrother, or stepsister, or a descendant of them.
 - i. A child includes an adopted child and includes a child placed for adoption in the taxpayer's household by an

authorized adoption agency even if the adoption is not finalized.

2. Age test
 - a. Under the age of 19.
 - b. Under the age of 24 and a full-time student.
 - c. Totally and permanently disabled regardless of age.
For years after 2008, the child must be younger than the person claiming the dependency.
3. Residency test
 - a. Child must live with the taxpayer for more than half the year, except for temporary absences.
4. Support test
 - a. Child must not provide more than half of his or her support.
Notice that this is different from the requirement under a qualifying relative.
5. Special test for qualifying child of more than one taxpayer
 - a. Only one taxpayer can claim the child as a qualifying child.
IRS will use the tie-breaker rules, as shown in Exhibit 2-4 of the text, to determine who is entitled to claim the child if the taxpayers involved cannot make a decision by themselves.

C. Who is a qualifying relative?

To be considered a qualifying relative, the following tests must be met:

1. Not a qualifying child test
 - a. A qualifying relative cannot be a qualifying child of the taxpayer or someone else.
2. Relationship or member of household test
 - a. A qualifying relative must be a member of the taxpayer's household for the entire year, or be related to the taxpayer. Only certain persons are considered related to the taxpayer.
 - i. Child or descendant of child (grandchild or great-grandchild), stepchild, eligible foster child, brother, sister, half-brother, half-sister, or a descendant of them, stepbrother or stepsister, father or mother, brother or sister of parents, son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law, or sister-in-law.
Note that if someone is related to the taxpayer (as indicated in the preceding list), it is not necessary that the person live with the taxpayer for the entire year or, actually, any part of the year. But it may be difficult to meet the support test if the individual does not live in the household.
3. Gross income test
 - a. A qualifying relative cannot have gross income equal to or greater than the exemption amount (\$4,050 for 2016).
4. Support test

- a. Taxpayer must provide over 50% of the qualifying relative's support.
- b. There are two exceptions: Multiple support agreement and child of divorced or separated parents. For a more detailed explanation, refer to pages 2-14, 2-15 and 2-16 of the text.

Note: Personal and dependency exemptions have increased to \$4,050, phasing out at different adjusted gross income amounts.

V. LO 5 – Standard Deduction

A. The standard deduction is the sum of the basic standard deduction and the additional standard deduction. Both components depend on filing status and are subject to annual adjustment for inflation.

1. The basic standard deduction for tax year 2016 is as follows:

Filing Status	Basic Standard Deduction
Single	\$ 6,300
Married filing jointly	12,600
Married filing separately	6,300
Head of household	9,300
Qualifying widow(er)	12,600

2. The additional standard deductions for taxpayers who are 65 or older or blind are:

Filing Status	Tax Year 2016
Single	\$ 1,550
Married filing jointly	1,250
Married filing separately	1,250
Head of household	1,550
Qualifying widow(er)	1,250

3. The standard deduction is zero if any of the following situations occur:
 - a. A married couple files separate returns and one spouse itemizes deductions.
 - b. The taxpayer is a nonresident alien.
 - c. A taxpayer files a return for a period of less than 12 months because of a change in accounting period.

VI. LO 6 – Refund or Tax Due

- A. Tax amount (line 28 on Form 1040A or line 44 on Form 1040)
 - 1. Tax tables are used by most taxpayers with taxable income of less than \$100,000.
 - 2. Taxpayers with \$100,000 or more use the tax rate schedules.
- B. Tax liability (line 39 on Form 1040A or line 63 on Form 1040)
 - 1. Represents total amount the taxpayer must pay to the government for the tax year.
- C. Tax payments (lines 40-45 on Form 1040A and lines 64-73 on Form 1040)
 - 1. Most of these payments are submitted in advance to the IRS.
 - a. Examples are: income tax withholdings and quarterly estimated tax payments.
 - b. There is an underpayment penalty for not submitting the appropriate amount to the IRS in a timely manner.
- D. Tax Refund (line 48a on Form 1040A or line 76a on Form 1040) or Tax Due with Return (line 50 on Form 1040A or line 78 on Form 1040)
 - 1. Excess payment results in a refund.
 - 2. Excess remaining tax liability means the taxpayer must pay the additional amount of tax to the IRS.

VII. LO 7 – Interest and Penalties

- A. The following sections show interest charged on assessments and the most common civil and criminal penalties applicable to individual tax returns.
 - 1. Interest charged on assessments

Time Period	Percentage Rate
Apr. 1, 2016 to Sept. 30, 2016	4%

Jan. 1, 2009 to Mar. 31, 2009	5
Oct. 1, 2008 to Dec. 31, 2008	6
July 1, 2008 to Sept. 30, 2008	5
Apr. 1, 2008 to June 30, 2008	6
Jan. 1, 2008 to Mar. 31, 2008	7

July 1, 2006 to June 30, 2007	8
Oct. 1, 2005 to June 30, 2006	7
Apr 1, 2005 to Sept. 30, 2005	6
Oct. 1, 2004 to Mar. 31, 2005	5

B. Failure to File Tax Penalty and Failure to Pay Tax Penalty

1. Failure to file tax penalty
 - a. The 5% penalty is based on the amount of tax due for each month or fraction of a month, up to a maximum of 25%.
 - b. Any income tax return not filed within 60 days of its due date is subject to a minimum penalty of the lesser of \$135 or the amount of tax required on the return.
2. Failure to pay penalty
 - a. The ½% penalty is based on the amount of tax due for each month or fraction of a month, up to a maximum of 25%.
3. *Caution:* When both penalties apply, the total percentage is 5% per month or fraction of a month, up to a maximum of 25%.

C. Failure to Pay Estimated Income Tax

1. Taxpayer must pay during the year, either through withholding or estimated payments, a minimum of the following:
 - a. 90% of the current year's tax liability.
 - b. 100% of the prior year's tax liability if the taxpayer's AGI in the prior year is less than \$150,000. If the taxpayer's prior year AGI is more than \$150,000, the percentage for the prior year rule increases to 110%.
2. Estimated payments can be made on a quarterly basis: April 15, June 15, September 15 in the current year, and January 15 of the next calendar year.
3. No estimated tax penalty applies if the tax due after withholding or estimated payments is less than \$1,000.
4. Form 2210 is used to calculate the failure to pay estimated tax penalty.

D. Accuracy-Related Penalties

1. A penalty can be assessed if negligence or any substantial understatement of income occurs.
2. Negligence can be defined as any failure to make a reasonable attempt to comply with the provisions of the Internal Revenue Code (IRC), including any careless, reckless, or intentional disregard for tax authority.
3. Substantial understatement occurs when the understatement is either more than 10% of the tax required to be shown on the return or \$5,000 or more.
4. IRS can assess a penalty equal to 20% of the tax due when negligence or substantial understatement occurs.

E. Fraud Penalties

1. The Internal Revenue Code (IRC) does not define fraud but one court, as explained on page 2-26 of the text, has defined it as intentional wrongdoing with the purpose of evading tax.
2. IRS can impose a 75% penalty on any portion of understatement of tax that is attributable to fraud.
3. Criminal penalties can be assessed in addition to civil penalties.

F. Erroneous Claim for Refund or Credit Penalty

1. A 20% penalty could be assessed by the IRS on the disallowed amount of the claim if the claim for refund or credit of income filed is found to be excessive. An amount for a claim is classified as “excessive” if the claim amount exceeds the amount of the allowable claim.
2. This penalty does not apply if the fraud or the accuracy-related penalty has been assessed.
