Advanced Accounting 14th Hoyle Chapter 01

Correct answers are located at the 2nd half this document

MULTIPLE CHOICE - Choose the one alternative that best completes the statement or answers the question.

1) Baker Company owns 15% of the common stock of Charlie Corporation and used the fair-value method to account for this investment. Charlie reported net income of \$120,000 for 2021 and paid dividends of \$70,000 on October 1, 2021. How much income should Baker recognize on this investment in 2021?

1) _____

- A) \$18,000.
- B) \$10,500.
- C) \$28,500.
- D) \$7,500.
- E) \$50,000.

5) On January 1, 2019, Dermot Company purchased 15% of the voting common stock of Horne Corp. On January 1, 2021, Dermot purchased 28% of Horne's voting common stock. If Dermot achieves significant influence with this new investment, how must Dermot account for the change to the equity method?

5) _____

A) It must use the equity method for 2021 but should make no changes in its financial statements for 2020 and 2019.

B) It should prepare consolidated financial statements for 2021.

C) It must restate the financial statements for 2020 and 2019 as if the equity method had been used for those two years.

D) It should record a prior period adjustment at the beginning of 2021 but should not restate the financial statements for 2020 and 2019.

E) It must restate the financial statements for 2020 as if the equity method had been used then.

6) During January 2020, Nelson, Inc. acquired 30% of the outstanding common stock of Fuel Co. for \$1,600,000. This investment gave Nelson the ability to exercise significant influence over Fuel. Fuel's assets on that date were recorded at \$7,200,000 with liabilities of \$3,400,000. Any excess of cost over book value of Nelson's investment was attributed to unrecorded patents having a remaining useful life of ten years.

In 2020, Fuel reported net income of \$650,000. For 2021, Fuel reported net income of \$800,000. Dividends of \$250,000 were paid in each of these two years. What was the reported balance of Nelson's *Investment in Fuel Co.* at December 31, 2021?

6) _____

Advanced Accounting 14th Hoyle Chapter 01

- A) \$1,793,000.
- B) \$1,885,000.
- C) \$1,943,000.
- D) \$1,977,000.
- E) \$1,054,300.

8) On January 1, 2021, Halpert Inc. acquired 30% of Schrute Corp. Halpert used the equity method to account for the investment. On January 1, 2022, Halpert sold two-thirds of its investment in Schrute. It no longer had the ability to exercise significant influence over the operations of Schrute. How should Halpert account for this change?

8) _____

A) Halpert should continue to use the equity method to maintain consistency in its financial statements.

B) Halpert should restate the prior years' financial statements and change the balance in the investment account as if the fair-value method had been used since 2021.

C) Halpert has the option of using either the equity method or the fair-value method for 2021 and future years.

D) Halpert should report the effect of the change from the equity to the fair-value method as a retrospective change in accounting principle.

E) Halpert should use the fair-value method for 2022 and future years, but should not make a retrospective adjustment to the investment account.

11) On January 3, 2021, Madison Corp. purchased 30% of the voting common stock of Huntsville Co., paying \$3,000,000. Madison decided to use the equity method to account for this investment. At the time of the investment, Huntsville's total stockholders' equity was \$8,000,000. Madison gathered the following information about Huntsville's assets and liabilities:

	Book Value	Fair Value
Buildings (10-year life)	\$ 400,000	\$ 600,000
Equipment (5-year life)	1,200,000	1,400,000
Franchises (8-year life)	\$ 0	\$ 480,000

Advanced Accounting 14th Hoyle Chapter 01

For all other assets and liabilities, book value and fair value were equal. Any excess of cost over fair value was attributed to goodwill, which has not been impaired.

What is the amount of goodwill associated with the investment?

11) _____

- A) \$600,000.
- B) \$264,000.
- C) \$0.
- D) \$336,000.
- E) \$480,000.

15) Borgin Inc. owns 30% of the outstanding voting common stock of Burkes Co. and has the ability to significantly influence the investee's operations and decision-making. On January 1, 2021, the balance in the *Investment in Burkes Co.* account was \$402,000. Amortization associated with the purchase of this investment is \$8,000 per year. During 2021, Burkes earned income of \$108,000 and paid cash dividends of \$36,000. Previously in 2020, Burkes had sold inventory costing \$28,800 to Borgin for \$48,000. All but 25% of this merchandise was consumed by Borgin during 2020. The remainder was used during the first few weeks of 2021. Additional sales were made to Borgin in 2021; inventory costing \$33,600 was transferred at a price of \$60,000. Of this total, 40% was not consumed until 2022.

What amount of *equity income* would Borgin have recognized in 2021 from its ownership interest in Burkes?

15) _____

- A) \$19,792.
- B) \$27,640.
- C) \$22,672.
- D) \$24,400.
- E) \$21,748.

17) On January 1, 2021, Corzine Inc. acquired 15% of Hammon Co.'s outstanding common stock for \$62,400 and did not exercise significant influence. Hammon earned net income of \$96,000 in 2021 and paid dividends of \$36,000. The fair value of Corzine's investment was \$80,000 at December 31, 2021. On January 3, 2022, Corzine bought an additional 10% of Hammon for \$54,000. This second purchase gave Corzine the ability to significantly influence the decision making of Hammon. During 2022, Hammon earned \$120,000 and paid \$48,000 in dividends. As of December 31, 2022, Hammon reported a net book value of \$468,000. At the date of the second purchase, Corzine concluded that Hammon Co.'s book values approximated fair values and attributed any excess cost to goodwill.

On Corzine's December 31, 2022 balance sheet, what balance was reported for the *Investment in Hammon Co.* account?

17) _____

- A) \$117,000.
- B) \$143,400.
- C) \$152,000.
- D) \$134,400.
- E) \$141,200.

26) Under the equity method, when the company's share of cumulative losses equals its investment and the company has no obligation or intention to fund such additional losses, which of the following statements is true?

26) _____

- A) The investor should change to the fair-value method to account for its investment.
- B) The investor should suspend applying the equity method until the investee reports income.
- C) The investor should suspend applying the equity method and not record any equity in income of investee until its share of future profits is sufficient to recover losses that have not previously been recorded.
- D) The cumulative losses should be reported as a prior period adjustment.
- E) The investor should report these as equity method losses in its income statement.

43) On January 1, 2020, Mehan, Incorporated purchased 15,000 shares of Cook Company for \$150,000 giving Mehan a 15% ownership of Cook. The fair value of the 15% investment was the same as the carrying value of the investment when, on January 1, 2021, Mehan purchased an additional 25,000 shares (25%) of Cook for \$300,000. This last purchase gave Mehan the ability to apply significant influence over Cook. The book value of Cook on January 1, 2020 was \$1,000,000. The book value of Cook on January 1, 2021, was \$1,100,000. Any excess of cost over book value for this second transaction is assigned to a database and amortized over four years.

Cook reports net income and dividends as follows. These amounts are assumed to have occurred evenly throughout the years:

	Net Income	Dividends
2020	\$ 200,000	\$ 50,000
2021	225,000	50,000
2022	250,000	60,000

Advanced Accounting 14th Hoyle Chapter 01

On April 1, 2022, just after its first dividend receipt, Mehan sells 10,000 shares of its investment.

What is the balance in the investment account for the 15% ownership interest, at January 1, 2021?

43) _____

A) \$150,000.

B) \$172,500.

C) \$180,000.

D) \$157,500.

E) \$170,000.

2020	\$ 200,000	\$ 50,000
2021	225,000	50,000
2022	250,000	60,000

On April 1, 2022, just after its first dividend receipt, Mehan sells 10,000 shares of its investment.
What was the balance in the investment account at December 31, 2021?

46) _____

- A) \$517,500.
- B) \$537,500.
- C) \$520,000.
- D) \$540,000.
- E) \$211,250.

Advanced Accounting 14th Hoyle Chapter 01

47) On January 1, 2020, Mehan, Incorporated purchased 15,000 shares of Cook Company for \$150,000 giving Mehan a 15% ownership of Cook. The fair value of the 15% investment was the same as the carrying value of the investment when, on January 1, 2021, Mehan purchased an additional 25,000 shares (25%) of Cook for \$300,000. This last purchase gave Mehan the ability to apply significant influence over Cook. The book value of Cook on January 1, 2020 was \$1,000,000. The book value of Cook on January 1, 2021, was \$1,100,000. Any excess of cost over book value for this second transaction is assigned to a database and amortized over four years.

Cook reports net income and dividends as follows. These amounts are assumed to have occurred evenly throughout the years:

	Net Income	Dividends
2020	\$ 200,000	\$ 50,000
2021	225,000	50,000
2022	250,000	60,000

On April 1, 2022, just after its first dividend receipt, Mehan sells 10,000 shares of its investment.

What was the balance in the investment account at April 1, 2022 just before the sale of shares?
47) _____

- A) \$447,500.
- B) \$468,750.
- C) \$535,875.
- D) \$555,000.
- E) \$624,375.

49) On January 3, 2020, Baxter, Inc. acquired 40% of the outstanding common stock of Anchor Co. for \$2,800,000. This investment gave Baxter the ability to exercise significant influence over Anchor. Anchor's assets on that date were recorded at \$11,700,000 with liabilities of \$4,700,000. There were no other differences between book and fair values.

During 2020, Anchor reported net income of \$600,000. For 2021, Anchor reported net income of \$900,000. Dividends of \$350,000 were paid in each of these two years.

How much income did Baxter report from Anchor for 2020?

49) _____

- A) \$140,000.
- B) \$220,000.
- C) \$240,000.
- D) \$360,000.
- E) \$600,000.

64) On January 2, 2021, Barley Corp. purchased 40% of the voting common stock of Wheat Co., paying \$3,000,000. Barley properly accounts for this investment using the equity method. At the time of the investment, Wheat's total stockholders' equity was \$5,000,000. Barley gathered the following information about Wheat's assets and liabilities whose book values and fair values differed:

	Book Value	Fair Value
Buildings (20-year life)	\$ 1,000,000	\$ 1,800,000
Equipment (5-year life)	1,500,000	2,000,000
Franchises (10-year life)	0	700,000

Advanced Accounting 14th Hoyle Chapter 01

Any excess of cost over fair value was attributed to goodwill, which has not been impaired. Wheat Co. reported net income of \$400,000 for 2021, and paid dividends of \$200,000 during that year.

What is the amount of the excess of purchase price over book value?

64) _____

- A) \$(2,000,000).
- B) \$800,000.
- C) \$1,000,000.
- D) \$2,000,000.
- E) \$3,000,000.

Barley gathered the following information about Wheat's assets and liabilities whose book values and fair values differed:

	Book Value	Fair Value
Buildings (20-year life)	\$ 1,000,000	\$ 1,800,000
Equipment (5-year life)	1,500,000	2,000,000
Franchises (10-year life)	0	700,000

Advanced Accounting 14th Hoyle Chapter 01

Any excess of cost over fair value was attributed to goodwill, which has not been impaired. Wheat Co. reported net income of \$400,000 for 2021, and paid dividends of \$200,000 during that year.

What is the amount of excess amortization expense for Barley's investment in Wheat for the first year?

66) _____

- A) \$0.
- B) \$84,000.
- C) \$100,000.
- D) \$160,000.
- E) \$400,000.

Topic : Equity Method—Amortize Allocations

67) On January 1, 2021, Jackie Corp. purchased 30% of the voting common stock of Rob Co., paying \$2,000,000. Jackie properly accounts for this investment using the equity method. At the time of the investment, Rob's total stockholders' equity was \$3,000,000. Jackie gathered the following information about Rob's assets and liabilities whose book values and fair values differed:

	Book Value	Fair Value
Buildings (15-year life)	\$ 1,000,000	\$ 1,500,000
Equipment (5-year life)	2,500,000	3,000,000
Franchises (10-year life)	\$ 0	\$ 500,000

Any excess of cost over fair value was attributed to goodwill, which has not been impaired. Rob Co. reported net income of \$300,000 for 2021, and paid dividends of \$100,000 during that year.

What is the amount of the excess of purchase price over book value?

Advanced Accounting 14th Hoyle Chapter 01

67) _____

- A) \$(1,000,000.)
- B) \$400,000.
- C) \$800,000.
- D) \$1,000,000.
- E) \$1,100,000.

Advanced Accounting 14th Hoyle Chapter 01

87) Renfroe, Inc. acquired 10% of Stanley Corporation on January 4, 2020, for \$90,000 when the book value of Stanley was \$1,000,000. During 2020, Stanley reported net income of \$215,000 and paid dividends of \$50,000. The book value of the 10% investment was the same as the fair value of that investment when, on January 1, 2021, Renfroe purchased an additional 30% of Stanley for \$325,000. Any excess of cost over book value is attributable to goodwill with an indefinite life. During 2021, Renfroe reported net income of \$320,000 and paid dividends of \$50,000.

How much is the adjustment to the Investment in Stanley Corporation for the change from the fair-value method to the equity method on January 1, 2021?

87) _____

- A) A debit of \$16,500.
- B) A debit of \$21,500.
- C) A debit of \$90,000.
- D) A debit of \$165,000.
- E) There is no adjustment.

89) On January 3, 2020, Trycker, Inc. acquired 40% of the outstanding common stock of Inkblot Co. for \$2,400,000. This investment gave Trycker the ability to exercise significant influence over Inkblot. Inkblot's assets on that date were recorded at \$8,000,000 with liabilities of \$2,000,000. There were no other differences between book and fair values.

During 2020, Inkblot reported net income of \$500,000 and paid dividends of \$300,000. The fair value of Inkblot at December 31, 2020 is \$7,000,000. Trycker elects the fair value option for its investment in Inkblot.

How are dividends received from Inkblot reflected in Trycker's accounting records for 2020?

89) _____

- A) Reduce investment in Inkblot by \$280,000.
- B) Increase Investment in Inkblot by \$280,000.
- C) Reduce Investment in Inkblot by \$120,000.
- D) Increase Investment in Inkblot by \$120,000.
- E) Increase Dividend Income by \$120,000.

99) On January 4, 2020, Hull Corp. paid \$516,000 for 24% (48,000 shares) of the outstanding common stock of Oliver Co. Hull used the equity method to account for the investment. At the end of 2020, the balance in the investment account was \$620,000. On January 3, 2021, Hull sold 12,000 shares of Oliver stock for \$12 per share. For 2021, Oliver reported net income of \$118,000 and paid dividends of \$30,000.

Required:

- (A) Prepare the journal entry to record the sale of the 12,000 shares.
- (B) After the sale has been recorded, what is the balance in the investment account?
- (C) What percentage of Oliver Co. stock does Hull own after selling the 12,000 shares?
- (D) Because of the sale of stock, Hull can no longer exercise significant influence over the operations of Oliver. What effect will this have on Hull's accounting for the investment?
- (E) Prepare Hull's journal entries related to the investment for the rest of 2021.

100) On January 2, 2021, Jolley Corp. paid \$250,000 for 25% of the voting common stock of Wonder Co. On that date, the book value of Wonder was \$850,000. A building with a carrying value of \$160,000 was actually worth \$220,000. The building had a remaining life of twenty years. Wonder owned a trademark valued at \$90,000 over cost that was to be amortized over 20 years.

During 2021, Wonder sold to Jolley inventory costing \$60,000, at a markup of 50% on cost. At the end of the year, Jolley still owned some of these goods with an intra-entity selling price of \$33,000. Jolly uses a perpetual inventory system.

Wonder reported net income of \$200,000 during 2021. This amount included a gain of \$35,000. Wonder paid dividends totaling \$40,000.

Required:

Prepare all of Jolley's journal entries for 2021 in relation to Wonder Co. Assume the equity method is appropriate for use.

101) On January 2, 2020, Pond Co. acquired 40% of the outstanding voting common shares of Ramp Co. for \$700,000. On that date, Ramp reported assets and liabilities with book values of \$2.2 million and \$700,000, respectively. A building owned by Ramp had an appraised value of \$300,000, although it had a book value of only \$120,000. This building had a 12-year remaining life and no salvage value. It was being depreciated on the straight-line basis.

Ramp generated net income of \$300,000 in 2020 and a loss of \$120,000 in 2021. In each of these two years, Ramp paid a cash dividend of \$70,000 to its stockholders.

During 2020, Ramp sold inventory to Pond that had an original cost of \$60,000. The merchandise was sold to Pond for \$96,000. Of this balance, \$72,000 was resold to outsiders during 2020 and the remainder was sold during 2021. In 2021, Ramp sold inventory to Pond for \$180,000. This inventory had cost only \$108,000. Pond resold \$120,000 of the inventory during 2021 and the rest during 2022.

Required:

For 2020 and then for 2021, calculate the equity income to be reported by Pond for external reporting purposes.

On the date of purchase, Christopher's books reported assets of \$2,000,000 and liabilities of \$600,000. Any excess of cost over book value of Nelson's investment was attributed to a patent with a remaining useful life of seven years. During 2020, Christopher reported net income of \$250,000 and declared and paid cash dividends of \$55,000. In the following year, 2021, Christopher reported net income of \$300,000 and declared and paid cash dividends of \$70,000.

In 2020, Nelson sold inventory costing \$60,000 to Christopher for \$80,000. Christopher sold 75% of that inventory to outsiders during 2020 with the remainder being sold in 2021. During 2021, Nelson sold inventory costing \$70,000 to Christopher for \$100,000. Christopher sold 80% of that inventory to outsiders during 2021.

What amount of gross profit on 2021 intra-entity sales should Nelson defer at December 31, 2021?

109) On January 4, 2020, Nelson Corporation purchased 35% of the outstanding voting common stock of Christopher Company for \$560,000. This purchase gave Nelson the ability to exercise significant influence over the operating and financial policies of Christopher. On the date of purchase, Christopher's books reported assets of \$2,000,000 and liabilities of \$600,000. Any excess of cost over book value of Nelson's investment was attributed to a patent with a remaining useful life of ten years. During 2020, Christopher reported net income of \$250,000 and declared and paid cash dividends of \$55,000. In the following year, 2021, Christopher reported net income of \$300,000 and declared and paid cash dividends of \$70,000.

In 2020, Nelson sold inventory costing \$60,000 to Christopher for \$80,000. Christopher sold 75% of that inventory to outsiders during 2020 with the remainder being sold in 2021. During 2021, Nelson sold inventory costing \$70,000 to Christopher for \$100,000. Christopher sold 80% of that inventory to outsiders during 2021.

Prepare all of Nelson's journal entries for 2020 to apply the equity method.

ESSAY. Write your answer in the space provided or on a separate sheet of paper.

112) For each of the following numbered situations below, select the best letter answer concerning accounting for investments:

- (A) Increase the investment account.
- (B) Decrease the investment account.
- (C) Increase dividend revenue.
- (D) No adjustment necessary.
- (1.) Income reported by 40% owned investee.
- (2.) Income reported by 10% owned investee.
- (3.) Loss reported by 40% owned investee.
- (4.) Loss reported by 10% investee.
- (5.) Change from fair-value method to equity method. Prior income exceeded dividends.
- (6.) Change from fair-value method to equity method. Prior income was less than dividends.
- (7.) Change from equity method to fair-value method. Prior income exceeded dividends.
- (8.) Change from equity method to fair-value method. Prior income was less than dividends.
- (9.) Dividends received from 40% investee.
- (10.) Dividends received from 10% investee.
- (11.) Purchase of additional shares of investee.
- (12.) Investor's share of gross profit from intra-entity inventory sales when using the equity method.

30) C

31) B

32) D

Book value purchased = $(\$550,000 - \$300,000) = \$250,000 \times 30\% = \$75,000$

Excess: $\$100,000 - \$75,000 = \$25,000$

Allocated to patent: $\$30,000 \times 30\% = \$9,000$

Remainder to goodwill: $\$25,000 - \$9,000 = \$16,000$.

33) B

2020 Equity Income = $(\$50,000 \times 30\%) = \$15,000$

2020 Excess Patent Amortization = $(\$30,000 \div 6 = \$5,000) \times 30\% = \$1,500$

$\$15,000 - \$1,500 = \$13,500$

34) B

2021 Equity Income = $(\$75,000 \times 30\%) = \$22,500$

2021 Excess Patent Amortization = $(\$30,000 \div 6 = \$5,000) \times 30\% = \$1,500$

$\$22,500 - \$1,500 = \$21,000$

35) D

$\$100,000 + \$13,500 - (\$20,000 \times 30\%) = \$107,500$

36) A

$\$107,500 + \$21,000 - (\$30,000 \times 30\%) = \$119,500$

37) A

$(\$50,000 \times 15\% = \$7,500) = \text{Dividends received by Jones in 2020}$

38) A

$\$200,000 \times 40\% = \$80,000$

39) D

Advanced Accounting 14th Hoyle Chapter 01

ASU No. 2016-07 eliminated retrospective application of equity method and requires prospective treatment. Thus, the acquisition cost of the Anderson shares acquired on January 1, 2021 is added to the current fair value of the previous investment.

40) C

Investment in Anderson balance 2021 year end:

January 1, 2021 fair value = \$120,000 + \$200,000 = \$320,000

40% of 2021 Anderson net income less dividends = \$72,000 – \$22,000
= \$50,000

December 31, 2021 equity method balance = \$320,000 + \$50,000 =
\$370,000

41) C

$\$400,000 - \$260,000 = \$140,000 \times (1 - (\$300,000 \div \$400,000)) = \$35,000 \times 35\% = \$12,250$

Recognition of its share of intra-entity gross profits by reduction <CR> in the Investment in Bartlett Account

42) D

Reversal of the deferral entry in 2021, thus recognizing the profit in 2022 income:

$\$400,000 - \$260,000 = \$140,000 \times (1 - (\$300,000 \div \$400,000)) = \$35,000 \times 35\% = \$12,250$

43) A

\$150,000; The fair value is the same as the carrying value so there is no adjustment to the investment account. Thus, the account is carried at the original cost of the investment.

44) C

$\$7,500 \text{ Dividends Received} = 15\% \times (\text{Dividends Declared } \$50,000)$

45) D

Share of net income: $\$225,000 \times 40\% = \$90,000$

Fair value of 40% acquired: $\$150,000 + \$300,000 = \$450,000$.

Book value of 40% acquired: $\$1,100,000 \times 40\% = \$440,000$

$\$450,000 - \$440,000 = \$10,000$ attributable to database

$\$10,000 \div 4 = \$2,500$

$\$90,000 - \$2,500 = \$87,500$

46) A

$\$150,000 = \$150,000$ Balance at date of changing to equity method.

$\$150,000 + \$300,000 + (\$90,000 - \$2,500) - \$20,000 = \$517,500$ Balance 2021 Year End

47) C

Advanced Accounting 14th Hoyle Chapter 01

$$\$517,500 + (\$25,000 - \$625) - \$6,000 = \$535,875$$

2022 Beginning Investment Account Balance + (40% of 1st Quarter Income – 1st Quarter Amortization) – 1st Quarter Dividend

48) B

$$(\text{First Quarter Income} \times 40\%) + (\text{2nd thru 4th Qtr Income} \times 30\%) = (\$250,000/4 \times 40\%) + [(\$250,000/4 \times 30\%) \times 3] = \$25,000 + (\$18,750 \times 3) = \$25,000 + \$56,250 = \$81,250$$

49) C

$$\$600,000 \times 40\% = \$240,000$$

50) D

$$\$900,000 \times 40\% = \$360,000$$

51) C

$$\$2,800,000 + (\$600,000 \times 40\%) - (\$350,000 \times 40\%) = \$2,900,000$$

52) D

$$\text{December 31, 2020: } \$2,800,000 + (\$600,000 \times 40\%) - (\$350,000 \times 40\%) = \$2,900,000$$

$$\text{December 31, 2021: } \$2,900,000 + (\$900,000 \times 40\%) - (\$350,000 \times 40\%) = \$3,120,000$$

53) B

$$\$2,000,000 - (\$70,000 \times 40\%) - (\$30,000 \times 40\%) = \$1,960,000$$

54) E

$$\$70,000 \text{ Loss} \times 40\% = \$28,000 \text{ Loss}$$

55) A

$$\$80,000 - \$52,000 = \$28,000 \text{ Income Recognized; None Deferred}$$

56) A

$$\$1,500,000 + (\$300,000 \times 30\%) - (\$100,000 \times 30\%) = \$1,560,000$$

57) E

$$\text{Investment account balance prior to sale: } \$1,500,000 + (\$300,000 \times 30\%) - (\$100,000 \times 30\%) = \$1,560,000$$

$$\$1,560,000 \times (15,000 \div 30,000) = \$780,000 \text{ Cost of Shares Sold}$$

$$\$800,000 \text{ Sales Price} - \$780,000 \text{ Cost of Shares Sold} = \$20,000 \text{ Gain on Sale of Shares}$$

Advanced Accounting 14th Hoyle Chapter 01

58) C

Investment account balance prior to sale: $\$1,500,000 + (\$300,000 \times 30\%) - (\$100,000 \times 30\%) = \$1,560,000$

$\$1,560,000 \times (15,000 \div 30,000) = \$780,000$ Cost of shares Sold

$\$1,560,000 - \$780,000$ Cost of Shares Sold = $\$780,000$ Balance in the Investment Account

59) B

Investment account balance prior to sale: $\$1,500,000 + (\$300,000 \times 30\%) - (\$100,000 \times 30\%) = \$1,560,000$

$\$1,560,000 \times (15,000 \div 30,000) = \$780,000$ Cost of Shares Sold

$\$800,000$ Sales Price - $\$780,000$ Cost of Shares Sold = $\$20,000$ Gain on Sale of Shares

60) D

$\$560,000 + (\$150,000 \times 40\%) - (\$40,000 \times 40\%) = \$604,000$

61) D

Investment account balance prior to sale: $\$560,000 + (\$150,000 \times 40\%) - (\$40,000 \times 40\%) = \$604,000$

$\$604,000 \times (10,000 \div 40,000) = \$151,000$ Cost of Shares Sold

$\$150,000$ Sales Price - $\$151,000$ Cost of Shares Sold = $\$1,000$ Loss on Sale of Shares

62) C

Investment account balance prior to sale: $\$560,000 + (\$150,000 \times 40\%) - (\$40,000 \times 40\%) = \$604,000$

$\$604,000 \times (10,000 \div 40,000) = \$151,000$ Cost of Shares Sold

$\$150,000$ Sales Price - $\$151,000$ Cost of Shares Sold = $\$1,000$ Loss on Sale of Shares

$\$604,000 - \$151,000 = \$453,000$

63) C

Investment account balance prior to sale: $\$560,000 + (\$150,000 \times 40\%) - (\$40,000 \times 40\%) = \$604,000$

$\$604,000 \times (10,000 \div 40,000) = \$151,000$ Cost of Shares Sold

$\$150,000$ Sales Price - $\$151,000$ Cost of Shares Sold = $\$1,000$ Loss on Sale of Shares

64) C

Advanced Accounting 14th Hoyle Chapter 01

$\$5,000,000 \times 40\% = \$2,000,000$ BV for 40% of the Shares

$\$3,000,000$ Price Paid – $\$2,000,000$ BV = $\$1,000,000$ Excess

65) D

$\$800,000$ Buildings + $\$500,000$ Equipment + $\$700,000$ Franchises = $\$2,000,000$ FV > BV of Assets

$\$2,000,000 \times 40\% = \$800,000$ FV Identified to Purchaser

$\$1,000,000$ Price Paid – $\$800,000$ FV > BV = $\$200,000$ Excess Unidentified (Goodwill)

66) B

$\$800,000 \div 20 = \$40,000$ per year Buildings $\times 40\% = \$16,000$

$\$500,000 \div 5 = \$100,000$ per year Equipment $\times 40\% = \$40,000$

$\$700,000 \div 10 = \$70,000$ per year Franchises $\times 40\% = \$28,000$

$\$16,000 + \$40,000 + \$28,000 = \$84,000$ Annual Excess Amortization

67) E

$\$2,000,000 - (\$3,000,000 \times 30\%) = \$1,100,000$ Price Paid > BV

68) C

$\$500,000$ Buildings + $\$500,000$ Equipment + $\$500,000$ Franchises = $(\$1,500,000 \text{ FV} > \text{BV}) \times 30\% = \$450,000$

$(\$1,100,000 \text{ Total} > \text{BV}) - (\$450,000 \text{ Identified}) = \$650,000$ Unidentified (Goodwill)

69) D

$\$500,000 \div 15 = \$33,333$ per year Buildings $\times 30\% = \$10,000$

$\$500,000 \div 5 = \$100,000$ per year Equipment $\times 30\% = \$30,000$

$\$500,000 \div 10 = \$50,000$ per year Franchises $\times 30\% = \$15,000$

$\$10,000 + \$30,000 + \$15,000 = \$55,000$ Annual Excess Amortization

70) B

$\$2,000,000 + (\$300,000 \times 30\%) - (\$100,000 \times 30\%) - \$55,000 = \$2,005,000$

71) A

$\$75,000 - \$55,000 = \$20,000 \times (\$15,000 \div \$75,000) = \$4,000 \times 40\% = \$1,600$ Deferred intra-entity gross profit

72) B

$\$110,000 - \$70,000 = \$40,000 \times (\$55,000 \div \$110,000) = \$20,000 \times 40\% = \$8,000$ Deferred intra-entity gross profit

73) D

$\$100,000 \times 40\% = \$40,000 - (\$1,600 \text{ Deferred intra-entity gross profit}) = \$38,400$

74) B

$\$576,000 + (\$100,000 \times 40\%) - (\$40,000 \times 40\%) - (\$1,600 \text{ Deferred intra-entity gross profit}) = \$598,400$

Advanced Accounting 14th Hoyle Chapter 01

75) B

$\$120,000 \times 40\% = \$48,000 + (\$1,600 \text{ in 2020 Recognized intra-entity gross profit}) - (\$8,000 \text{ in 2021 Deferred intra-entity gross profit}) = \$41,600$

76) A

$(\$598,400 \text{ Balance 2020}) + (\$41,600 \text{ Income from 2021}) - (\$16,000 \text{ Dividend from 2021}) = \$624,000$

77) A

$\$45,000 - \$30,000 = \$15,000 \times (\$9,000 \div \$45,000) = \$3,000 \times 30\% = \$900 \text{ Deferred intra-entity gross profit}$

78) B

$\$80,000 - \$48,000 = \$32,000 \times (\$20,000 \div \$80,000) = \$8,000 \times 30\% = \$2,400 \text{ Deferred intra-entity gross profit}$

79) D

$\$100,000 \times 30\% = \$30,000 - \$900 \text{ Share of Deferred gross profit on intra-entity inventory sales} = \$29,100$

80) B

$\$450,000 + (\$100,000 \times 30\% = \$30,000 - \$900 \text{ Deferred}) - (\$40,000 \text{ Dividends} \times 30\%) = \$467,100$

81) C

$\$120,000 \times 30\% = \$36,000 + (\$900 \text{ from 2021}) - (\$2,400 \text{ from 2022 Deferral}) = \$34,500$

82) B

$\$467,100 + (\$34,500 \text{ net income}) - (\$12,000 \text{ dividends}) = \$489,600$

83) D

84) A

85) C

------------------------------------	---------

100)

Required journal entries:

Investment in Wonder Co.	250,000	
Cash		250,000
To record the initial investment in Wonder Co.		
Investor Cost of Intra-Entity Inventory	90,000	
Cash		90,000
To record the purchase of inventory from Wonder Co.		
Investment in Wonder Co.	50,000	
Equity in Wonder Co. Income		41,250
Gain of Wonder Co.		8,750
To record share of Wonder Co.'s income.		
Cash	10,000	

Advanced Accounting 14th Hoyle Chapter 01

Investment in Wonder Co.	10,000
To record the receipt of dividend.	
Equity in Wonder Co. Income	1,875
Investment in Wonder Co.	1,875
To record amortizations.	
Equity in Wonder Co. Income	2,750
Investment in Wonder Co.	2,750
To defer its share of gross profit on intra-entity sales.	

Calculation of equity in Wonder Co. income:

$$(\$200,000 - \$35,000) \times 25\% = \$ 41,250$$

Calculation of unusual gain of Wonder Co.:

$$\$35,000 \times 25\% = \$ 8,750$$

Calculation of amortizations:

$$\text{Building } [(\$220,000 - \$160,000) \div 20] \times 25\% = \$ 750$$

$$\text{Trademark } [(\$90,000 \times 25\%) \div 20] = 1,125$$

$$\text{Total} = \$ 1,875$$

Calculation of deferred gross profit on intra-entity inventory sales:

$$\text{Cost} + 50\% \text{ cost} = \$60,000 + \$30,000 = 90,000$$

Advanced Accounting 14th Hoyle Chapter 01

Cost		(60,000)
Gross profit	\$	30,000
GP % = 30,000/90,000 =		1/3

Investment in Christopher Company	1,750	
Equity in Investee Income		1,750
To recognize income on intra-entity sale from 2020 that can now be recognized after sales to outsiders. $(\$80,000 - \$60,000) \times 25\% \times 35\% = \$1,750$		
Equity in Investee Income	2,100	
Investment in Christopher Company		2,100
To defer the investor's share of gross profit on intra-entity sales/purchases remaining in Christopher's ending inventory. $(\$120,000 - \$90,000) \times 20\% \times 35\% = \$2,100$		

111) The equity method concepts and applications described in IAS 28 are virtually identical to those prescribed by the FASB ASC. However, some differences do exist. First, the FASB allows a fair-value reporting option for investments that otherwise are accounted for under the equity method. IAS 28 does not provide for a fair-value reporting option. Second, if the investee employs accounting policies that differ from those of the investor, IAS 28 requires the financial statements of the investee to be adjusted to reflect the investor's accounting policies for the purpose of applying the equity method. U.S. GAAP does not have a similar conformity requirement.

112) (1) A; (2) D; (3) B; (4) D; (5) D; (6) D; (7) D; (8) D; (9) B; (10) C; (11) A; (12) B

113) The fair-value method should be used. Generally, ownership of more than twenty percent (20%) of the voting common stock would be presumed to carry significant influence and would require use of the equity method. The equity method is not appropriate in this case because of the lack of the ability to exercise significant influence.

Advanced Accounting 14th Hoyle Chapter 01

114) Idler should discontinue the use of the *equity method*. The investment would have a *zero balance* until investee profits eliminate unrecognized losses.

115) When an investor has the ability to exercise significant influence over the operations of an investee, the investor should use the equity method to account for the investment. GAAP suggests several events or conditions which would indicate such influence: (1) investor representation on the investee's board of directors; (2) material transactions between investor and investee; (3) interchange of managerial personnel; (4) technological dependency between investor and investee; (5) the extent of investor ownership and the concentration of other ownership interests in the investee; and (6) investor participation in the policy-making process of the investee. All of these conditions should be examined to determine whether the investor has the ability to exercise significant influence over the investee.

116) In order to verify that the equity method is appropriate, the auditor should determine whether the investor is able to exercise significant influence over the operations of the investee. The ability to influence the investee's operations is the most important criterion for adopting the equity method. The auditor should look for such evidence of significant influence such as: (1) frequent or material intercompany transactions; (2) exchange of managerial personnel; (3) technological interdependency; and (4) investor participation in the decision-making process of the investee.

Advanced Accounting 14th Hoyle Chapter 01

117) The use of the equity method influences the investor's income statement and balance sheet. On the income statement, the investor's net income will be increased by its share of the investee's earnings reduced by any amortization of cost in excess of fair value of depreciable net assets. On the balance sheet, the investor's total assets will include the investment account. The balance of the investment account is increased by the investor's share of the investee's income and decreased by investee losses and dividends paid and amortization of depreciable allocations. The investor's retained earnings are influenced by the investee's income or loss reported on the investor's income statement.

118) The objective of the equity method is to reflect the special relationship between investor and investee. The equity method is used when the investor holds a relatively large share of the investee, but not a controlling interest. The large ownership percentage indicates that the investor has the ability to influence the decision-making processes of the investee. Use of the fair-value method would not reflect the relationship between the two parties.

119) According to the equity method, the investor should recognize its share of the investee's income in the same period in which it is earned by the investee. The equity method applies accrual accounting when the investor could exercise significant influence over the investee.

120) An argument could be made against the recognition of income under the equity method. The investor is required to recognize its share of the investee's income even when it is unlikely that the investor will ever receive the entire amount in cash dividends.

Advanced Accounting 14th Hoyle Chapter 01

121) A change to the fair value method is appropriate when the investor can no longer exercise significant influence over the operations of the investee. No retrospective adjustment of previous years' financial statements or the balance in the investment account is required. The balance in the investment account at the time of the change would be treated prospectively as the cost of the investment.

122) The investor should account for other comprehensive income or loss by including it in an Other Comprehensive Income statement account that is separate from the Equity in Investee Income account. The investor should record its share of investee OCI, which should be included in its balance sheet as Accumulated Other Comprehensive Income (AOCI).

123) When the investor does not have significant influence with regard to the investee.

124) The investor possesses only a small percentage of an investee and cannot expect to have a significant impact on the operations or decision-making of the investee. Since the shares are bought in anticipation of cash dividends or appreciation of stock market values, dividends received are accounted for as income and the investment is reflected at each balance sheet date at its fair value which is generally the market value at that date.

125) According to GAAP, when there is a change from the fair value method to the equity method for investments, the change should be incorporated prospectively.

126) In the balance sheet, the Investment in Investee account will be at fair value at the balance sheet date. In the income statement, any change in fair value from period to period would be reflected as investment Income (increase in fair value) or loss (decrease in fair value). Also in the income statement, the dividends received would be reflected as dividend income.
