Correct Answer : hero

62 : In todays business environment, many companies have shifted away from the _____ culture, which supports and rewards a methodical, rational, and orderly way of doing things.

Correct Answer : consistency

ESSAY

63 : Discuss the relationship between external environmental characteristics and uncertainty.

Correct Answer : The external environment can be evaluated along two dimensions. First, one can evaluate (high to low) a number of factors in the environment. Second, one can evaluate (high to low) the rate of change of those factors. When both variables are low, low uncertainty

characterizes the external environment. When both variables are high, the external environment is marked by a high level of uncertainty. A highly uncertain environment requires organizations to adapt and/or attempt to influence the external environment.

64 : Discuss the different levels of culture.

Correct Answer : Culture can be analyzed at two levels. At the surface, there are the visible representations of culture, such as ceremonies and patterns of behaviors. These representations are easily observable. The second level of culture can be found in expressed ideas and values. These ideas and values can be identified through an analysis of such things as symbols and stories. Some values become so deeply embedded in a culture that members are no longer consciously aware of them.

65 : List the four categories of culture and describe the kind of environment in which each fits best.

Correct Answer : Adaptability culture fits best in fast response and high-risk, decision-making environments. Achievement culture fits best in results-oriented cultures that value competitiveness, aggressiveness, personal initiative, and willingness to work long and hard to achieve results. Involvement culture fits best in internal and employee-need-focused environments where the organization is seen as having a caring, family-like atmosphere. Consistency culture fits best in internal-focused organizations that have a consistency orientation for a stable environment.
